

Search Overview

gamishelp.dynaconnections.net/knowledge-base/search-overview/

November 20, 2018

You can perform basic and advanced listings searches from the **Search** icon in the menu bar of any device. You can also save searches, run saved searches, and edit any saved search criteria. You can browse listing results by toggling between different view options.

The screenshot displays the Georgia MLS search interface. At the top, there is a navigation bar with the Georgia MLS logo, a search icon, and various utility icons. Below the navigation bar, a search bar contains the text "SmartBar - Quickly find listings, clients, and more". The main search area includes several filters: Class (Residential), Status (All Active except Pending Approval, Coming Soon), Price (800,000 to (max),000), Address (Street #, Street Name, Suffix), County (DeKalb), Area (Select/Type to Narrow...), City, Zip, and Bedrooms (min, max). On the right side, there is a sidebar with "103 Matches", "Download Results", and "Save Search" options. Below this, a "Filters applied" section shows the current search criteria: Class (Residential), Status (All Active except Pending Approval, Coming Soon), Price (at least \$800,000), and County (DeKalb). The "My Searches" section lists two recent searches: "Mar 22, 12:54 PM - Residential" and "Mar 22, 12:46 PM - Residential", both with status "Active, Back On Market" and price "1260000 or more". The footer contains the text "connectMLS Connecting Your Real Estate Community" and "Customer Support | Terms of Service | Privacy Policy | © dynaConnections 2001-2021".
