## Value Definitions

Agriculture	A commercially zoned property for use in agriculture and agricultural activities.
Apartment	A unit within a wholly owned structure of 5 or more units. Use Condominium if individual unit for sale.
Condominium	A unit within a structure where ownership is on a unit-by-unit basis.
Conversion	A unit or wholly owned structure that has been converted from another use to residential space.
Duplex	A multi family structure with two independent units with shared space.
Estate Lot	A large plot of land generally designated for residential purposes. It is larger than an individual Residential Lot and may or may not have infrastructure, but does not have a completed residence.
Farm	A residential zoned property for use in agriculture and agricultural activities.
Industrial	A property designed/outfitted for industrial use.
Mixed Use	A property built for more than one use (e.g Office and Retail or Retail and Residence).
Mobile Home	A factory built house that is transported to the lot.
Other	A catch-all option for any property that does not fit one of the other options available.
Quadruplex	A multi family structure with four independent units with shared space.
Residential Lot	A Residential zoned lot where no residential structures are built, but may have infrastructure in place.
Single Family Residence	A single family residence on real property (e.g. fee simple or detached property).
Townhouse	A unit attached to other similar units via shared walls (e.g. Row House or Brownstone).
Triplex	A multi family structure with three independent units with shared space.
Unimproved Land	A plot of land on which no residence or infrastructure has been constructed.
