

## The “System of Choice” is Yours!

The “System of Choice” concept allows you to choose the platform that will best fit your business practices. connectMLS’s intuitive, feature-rich, and mobile friendly solution delivers real estate data that is consumable via a modern online experience. Paragon MLS brings the familiarity and client solutions that members have relied on for many years. Finally, GAMLS Search is the “Grab and Go” solution that allows quick and easy access to listing data, reports, and statistics. When it comes to strengthening your client relationships through listing data, the choice is now yours!

### MLS Platforms

**connectMLS’s** intuitive, feature-rich, and mobile friendly solution delivers real estate data via a modern online experience. Using responsive technology, connectMLS automatically acclimates to any screen size, or resolution, to seamlessly adapt across all devices.

**Paragon’s** straightforward navigation makes it simple to access real-time data from the MLS via PC’s, tablets and smartphones so agents can present listing details to clients quickly and easily.

**GAMLS Search** is a proprietary in-house platform designed to allow members to quickly search, view and print listing data.
